

**CURRICULUM VITAE**  
**MANUEL J. RODRIGUEZ, PhD**

---

**SHORT BIOGRAPHY**

Dr. Rodriguez, PhD in Civil Engineering, is professor of Université Laval, at the School of Urban and Regional Planning. He holds the NSERC Industrial Research Chair in Management and Surveillance of Drinking Water Quality. He is director of the Research Center on Urban and Regional Planning (CRAD). The expertise of Dr. Rodriguez revolves around a unique combination of water engineering, urban & regional planning and environmental modelling. He has published about 120 papers in peer-reviewed journals, presented more than 200 scientific presentations in conferences and made more than 40 talks as guest speaker. The value of Dr. Rodriguez's research activities in drinking water quality management has been enhanced through his ability to cooperate with researchers in other disciplines such as urban planning, environmental health and epidemiology, toxicology, urban hydraulics, decision-making processes, environmental modeling, environmental engineering, spatial analysis with geographical information systems (GIS), water economics, participatory processes and environmental legislation.
